# Pimple Cover & Care Patch

---

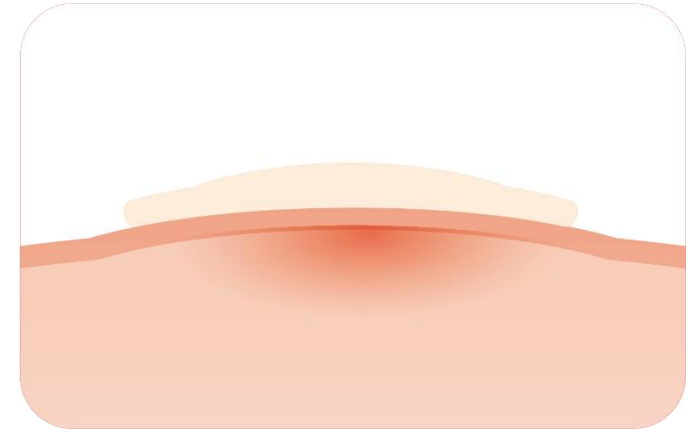

## Absorption of Secretion

It blocks dirt & bacteria, and absorbs secretion promptly to prevent forming of scab, eventually it promotes faster healing and skin regeneration.

## Water-Resistance

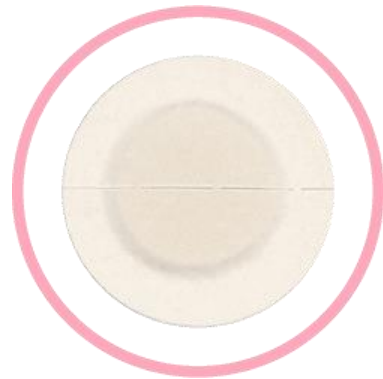

With excellent adhesion, it sticks to the skin for a long time while washing and outdoor activities!

## Natural Coverage

Beveled Edge shape is easily invisible after the makeup, and it covers any spot on a face naturally!

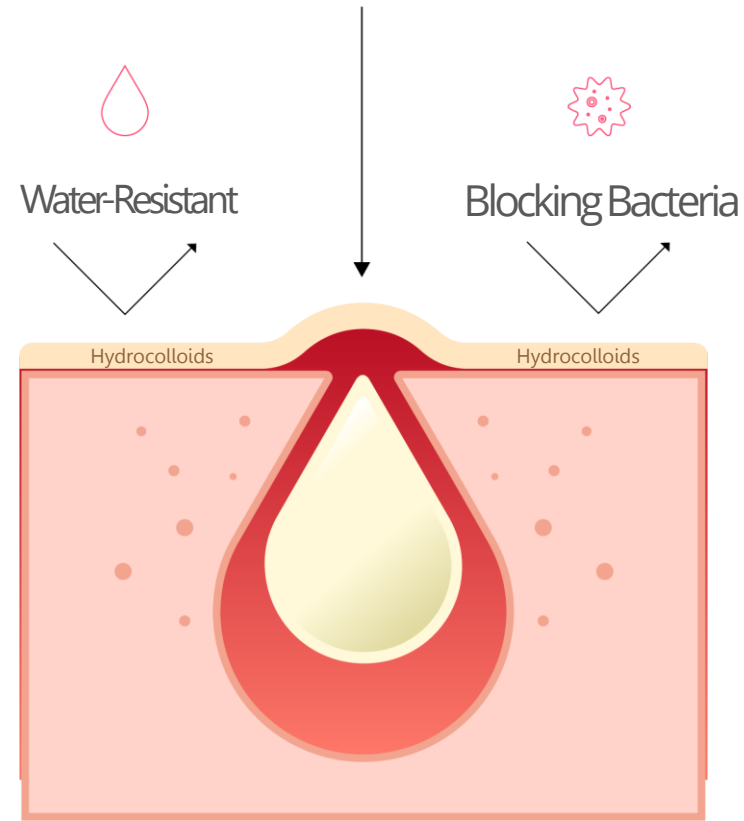

# Just like your own skin!

## Natural Coverage with the beveled edge

The beveled edge of the patch is ultra thin and shows excellent adhesion so that it covers spot naturally even after the makeup!

## Excellent Adhesion & Permeability/Breathability

**Stop popping, picking, touching, irritating, and aggravating!**  
**Just Stick it to the spot!**

Hydrocolloids promptly absorbs secretion and provides moist wound environment as preventing forming of scab, eventually it promotes faster healing of wounds.
